4. Customers with characteristics of vulnerability

The Product is designed for the wider First Charge Mortgage sector, which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

Some customer cohorts such as First Time Buyers are less likely to have a detailed understanding of mortgages or the wider mortgage market. They therefore may require additional support and advice to ensure that they understand the information being presented to them and the implications of the arrangements they are entering into to reduce the risk of harm occurring.

In addition, some cohorts of customer who are consolidating secured and unsecured debt may currently be suffering emotional stress as a result of limited financial resilience. Such customers may require additional support and sign-posting to ensure that they fully understand the information being presented and the risks associated to transfer unsecured debt into secured debt on their homes.

We have reviewed this Product to assess whether it will meet the identified needs, characteristics and objectives of the customers in the target market who have vulnerability characteristics. We have a vulnerability framework in place to achieve good outcomes for vulnerable customers, which includes:

- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers.
- Vulnerable customer Champions to ensure that best practice is shared across the Bank
- Suitable customer service provision and communications.
- Flexible policies, where appropriate, to support vulnerable members
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

Intermediaries should continue to comply with obligations to ensure that they treat customers in vulnerable circumstances fairly. This includes informing the Bank, where consent has been obtained, of any customer vulnerabilities identified during the sales process.

Please contact us if you need any further information about how we support the needs of all our customers in relation to this Product.

The outcomes of the assessment process are presented to the Mortgages Management Committee, allowing for challenge and further investigation before we sign-off the outcomes and share the summary of our assessment with you.
